

End of product support notification

16th of April 2018

Dear Valued customer, Teknek has now over 23,500 machines in the field, supplied over the last 30 years of Clean Machine manufacture.

As products age they come to the end of their useful life and need to be replaced with more relevant and up to date equipment.

Teknek has compiled a list of these older machines as they are now fully terminated from our range. This means that we can no longer supply elastomer rollers or any other spare parts for them.

This notification serves to inform our customers of the machines that are no longer supported – see table below.

In recognition of the difficulties end-of-support can be for some customers, Teknek offers a comprehensive 'trade-in/trade up' program for your old machine. Please contact your local sales team for further details.

Thank you for your continued support of Teknek cleaning technology.

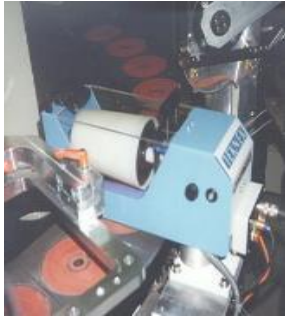

Kind regards

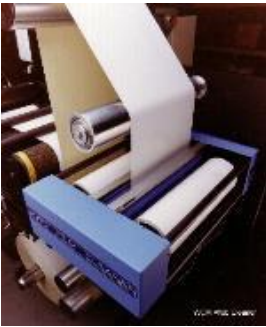

Roy Cannon

Senior Product manager

Product end of support notification - April 2018
